## about us

[www.makerslam.com](http://www.makerslam.com)

It takes a bright and innovative idea to change almost everything in the world. Makers understands this belief and work on it day in day out to produce exceptional and classy laminates that not only protect your ambience and its beauty but also celebrate the saga of elegance and dynamic energy. Ajmer Industries LLP conceived Makers in 2016 to break the set taboos and make decorative laminates an essential decor element that can elevate the glory of any space to do so with efficiency, we take care of each and every element that goes into their production. Our inclination towards quality has been recognised by authorities as our Pure Phenolic Products are ISI certified. Besides, we also adhere to the set norms of ISO 9001-2015 for quality, ISO 14001-2015 for the environment and ISO 18001 for the health and safety. Use of sound raw materials from China and Europe, state-of-the-art technology and implementation of innovative ideas help us in delivering excellent quality laminates that are at par with international standards.

### NOTES :

- Size : 2440 mm x 1220 mm [8'x4']  
 Thicknesses : 1.00 mm (other thickness available on request)  
 Notes :
- All tests may not be valid for metallic and gloss laminates.
  - Samples pasted, represent only color, pattern and finish and not actual thickness.
  - There may be slight variation in shades in batch to batch, particularly in metallic designs.
  - Bonding of laminates under high humidity, plywood with high moisture content, ply with uneven surface, inferior quality adhesive and insufficient pressure may lead to delamination/ air bubbles in between ply and laminate.
  - MAKERS DECORATIVE LAMINATES are used for various applications, without the possibility of control over the manufacturing of the finished products, the company does not assume obligations or liabilities arising from the furnishing, sale, installation or repair, use or subsequent sale of any product, to any person or entity.

### ACHIEVEMENTS :

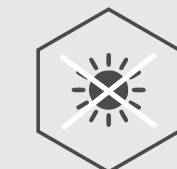

### MANAGEMENT SYSTEM CERTIFICATION

Do not use chemicals for cleaning

Extra care required in vertical pasting of laminates sheet as there is possibility of bubbles due to lack of uniform pressure

Avoid direct sunlight/continuous light. These may cause color fading

Cracking at corners and around cuts may be caused by improper conditioning, improper bonding, and poor planning. Avoid all these to prevent cracking at corners.

enrapturing  
and subtle
