Extract the best out of your interiors

The Virgo Group of Companies constantly looks out for innovation and challenges in the industry. Across all its group companies maintains a philosophy of reaching out to perfection, no matter what it takes, whether high-end resources or a superlative manpower. With a team size of over 3000+ employees, Virgo Group's employees spread all across the nation are working together in a rewarding environment to achieve the objectives the company was founded upon. Long before, government-imposed regulations concerning the protection of the environment, Virgo Group had already invested in "Environment Friendly" initiatives. These included reforestation programs and elimination of the use of tropical woods and harmful, ozone-damaging chemicals. Weighing its actions on a philosophical pedestal, Virgo today has evolved into a dynamic group that has been generating optimum profit through the total satisfaction of customers, suppliers, employees and society.

Achievement:

Quality : First Company ever to be certified by Bureau of Indian Standards #IS:2046 for Laminates and Industrial Laminates with eleven classifications.

Classification:

CGS, CGF, HDS, HDF, HGS, HGP, HGF, VGS, VGF, VGP & VLS

VIRGO Group to her Products & ISI

Do not use chemicals for cleaning.

Avoid direct sunlight / continuous light. These may cause colour fading.

Extra care required in vertical pasting of laminates sheet as there is possibility of bubbles due to lack of uniform pressure.

Cracking at corners and around cuts may be caused by improper conditioning, improper bonding, poor planning. Avoid all these to prevent cracking at corners.

Indian Green Building Council Membership

An ISO 9001 and 14001 Certified

Notes:

All tests may not be valid for metallic Laminates.

Samples pasted, represent only colour, pattern and finish, not actual thickness. There may be slight variation in shades in batch to batch, particularly in Metallic designs.

Bonding of laminate under high humidity, plywood with high moisture content, ply with uneven surface, inferior quality adhesive and insufficient pressure may lead to delamination/ air bubbles in between ply and laminate.

CORBY LAMINATES + warrants that its products are free from manufacturing defects and they are fit and suitable for usual purpose under normal and proper use.

The product must be inspected prior to installation and our liability will be limited to the extent of the product only.
